

# Senior Managers

## Who is this service for?

Identified learning providers in the Learning and Skills sector in the North East, comprising FE Colleges, Specialist Colleges, Adult and Community Learning and Work Based Learning.

## What service is available to you?

Services for senior managers in individual learning providers include:

- Advice and guidance on how technology can support your strategic objectives to become an e-mature organisation.
- E-Progress Reviews (EPR) which explore your current stage of development and support action planning.
- Support with developing, implementing and evaluating an effective strategy for the use of technology which integrates with other organisational strategies.
- Advice and guidance on new build and learning space design, preparing for learning as it will be, rather than as it is.

RSC Northern advice and guidance can:

- Enable you to access sources of expertise.
- Identify relevant information, case studies and examples on issues relating to new technology.
- Work with you, to support your decision making.
- Support the implementation of your action plan and its evaluation.

## How will you benefit?

The benefit of embedding technology and e-learning in the work of your organisation is an increase in the efficiency of your means to achieve your ends. Such benefits can be quantitative, such as improved recruitment and success rates, or qualitative such as improved learner experience. Essentially, you have more choices in achieving your objectives.

RSC Northern can link you and your staff to other learning providers to help you answer questions such as:

- What are others doing that would be useful to do here too?
- Who else is looking for a solution to our issue?

You can ask your RSC for advice and guidance on any issue relating to the use of e-learning and new technology including:

- Curriculum matters – including e-pedagogy, learning resources, e-portfolios, e-assessment, new technologies and HE learners in FE colleges.
- Staff development – including planning and programmes, the introduction of new technologies.
- Whole organisation management – including embedding e-learning in quality processes, e-learning strategies, new build and learning space design.
- Technical infrastructure – including information security, network management and access management.

Further information on these advice and guidance services is available from RSC Northern.

## What does it cost?

The services we offer to RSC Northern supported providers are free of charge. There may be a charge for special events.

## What are the advantages of using RSC Northern?

Using the services of your RSC Northern advisor will enable you to draw on informed, independent expertise based on knowledge, skills and effective practice elsewhere.
